# Run and Not Be Weary

*One hundred and eleven recipes built on protein, fiber and staying full, with primary ingredients from the bishops' storehouse. Every one carries real macros and a computed nutrition score.*

VOLUME I OF II

*And shall run and not be weary,  
and shall walk and not faint.*

DOCTRINE AND COVENANTS 89:20

# How to read a recipe

*Primary ingredients come from the bishops' storehouse order.*

This is not an official product of The Church of Jesus Christ of Latter-day Saints and is not affiliated with or endorsed by the Church. It is a family's own collection, built from what their bishops' storehouse carries.

## THE NUMBER

Every recipe has one, running from 001 straight through both volumes. The contents at the front of each book lists them in order with its page.

## EFFORT

|          |                                                                   |
|----------|-------------------------------------------------------------------|
| Easy     | No real cooking, or one pan and a few minutes.                    |
| Medium   | A hot stove and some timing, but nothing that can go badly wrong. |
| In-depth | An afternoon, or a long slow oven, or a technique worth learning. |

## THE LINE UNDER THE TITLE

Servings, time, effort, and a nutrition score out of 100. Six things make it up: how much of the energy comes from protein (27 points, full marks at 45%), how many calories a serving carries (18, full marks up to 300), how much of the energy comes from fat (8, full marks at or below a tenth), how much sodium a serving carries (22, full marks to 300 mg and nothing left by 1,200), how much fiber (13, full marks at 7 g), and how much of the energy is carbohydrate that arrived without any (12).

That last one is not a carbohydrate count. Oats and frosting are both carbohydrate, and a number that cannot tell them apart is worse than no number. A gram of fiber covers ten grams of carbohydrate — roughly the ratio a whole food comes in — and only what is left over costs anything. A bowl of oats loses nothing; a mug of hot milk and brown sugar loses all twelve.

Sodium, fiber and carbohydrate are worked out from the ingredients rather than measured, in both volumes. Canned goods carry the salt; that is most of what the sodium figure is telling you.

It measures one thing only. A high score does not mean a dish is good, and a low one does not mean it is bad — a plate of fudge scores badly and is still fudge. Whether a recipe needs anything beyond the standard order is a separate question, answered on the line at its foot.

ALSO NEEDS

The line at the foot of each recipe. Either it says everything is on the standard list, or it names exactly what is not, so you know before you start rather than halfway through.

SERVINGS

Written for a household. Halving or doubling most of these is safe; baking is the exception, where the ratios are doing real work.

Temperatures and doneness

*Colour is not a reliable guide. A thermometer in the thickest part is.*

|          |                                                               |
|----------|---------------------------------------------------------------|
| 165°F    | Chicken and turkey, every cut, and anything reheated          |
| 160°F    | Ground beef and ground pork; egg dishes and casseroles        |
| 145°F    | Whole cuts of beef and pork, then rested three minutes        |
| 40–140°F | The range food should not sit in. Two hours out is the limit. |

Chicken is the one to be careful with. A crisp crust, clear juices or a long time in the oven are not proof it is done — thick breasts under a sauce take far longer than they look. Where a recipe cooks chicken, it says what to check for.

Ovens lie

Most run hot or cold by a good margin. Check five minutes before the stated time the first time you make something, and write the real time in the margin.

# Weights and swaps

*One cup, level, unpacked unless it says otherwise.*

|       |                                  |
|-------|----------------------------------|
| 125 g | Flour, one cup                   |
| 200 g | Granulated sugar, one cup        |
| 220 g | Brown sugar, one cup, packed     |
| 120 g | Powdered sugar, one cup          |
| 227 g | Butter, one cup — two sticks     |
| 80 g  | Rolled oats, one cup             |
| 244 g | Milk or water, one cup           |
| 7 g   | Yeast, one packet — 2¼ teaspoons |

WHEN YOU ARE MISSING SOMETHING

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| Buttermilk         | A cup of milk with a spoonful of vinegar or lemon juice, left ten minutes                 |
| Self-raising flour | A cup of flour with 1½ teaspoons baking powder and a pinch of salt                        |
| One egg            | In a bake, three tablespoons of applesauce — not in a custard, where the egg is the point |
| Cake flour         | A cup of flour with two tablespoons taken out and two of cornstarch put back              |
| Sour cream         | Plain yogurt, in most things that are not baked                                           |

# Lemon Pepper Chicken Breast & Green Beans

INGREDIENTS

- 1.5 lbs chicken breast
- 2 cans green beans
- 1.5 lbs potatoes

METHOD

- 1 Heat the oven to 400°F. Season the chicken well on both sides with salt and a lot of black pepper — more than looks sensible, since this is half of what the title is promising — and bake 20 minutes. Give it longer if the breasts are thick; done means 165°F and no pink at the centre.

# Savory Beef & Mash Shepherd's Bowls

- 3 Layer beef, green beans, corn, and potatoes into 4 containers.

**BETTER WITH** *Onion, garlic, thyme, Worcestershire* Soften a diced onion with the beef, and a clove of minced garlic for the last minute. # Vanilla & Cinnamon Steamer

*Paste First, Then the Hot Water*

INGREDIENTS

- ¾ cup non-fat dry milk
- 1.5 cups hot water
- 1 tsp vanilla
- 1 tsp cinnamon
- 1 tsp honey

190 kcal · 16g protein · 31g carbs · 0g fat

METHOD

- 1 Put the dry milk and cinnamon in a mug and add about two tablespoons of cold water. Stir to a smooth paste. This is the whole trick — dry milk tipped straight into hot water seizes into lumps that never come out.
- 2 Heat the rest of the water until it steams. Do not boil it; boiled milk skins and tastes scorched.
- 3 Pour the hot water in slowly, stirring as you go.
- 4 Stir in the vanilla and honey and drink it hot.

# Fortified Hot Cocoa

*Half the Packet, Four Times the Protein*

INGREDIENTS

- ¾ cup non-fat dry milk
- ½ packet hot cocoa mix
- 1.5 cups hot water
- 1 tsp cinnamon

METHOD

- 1 Stir the dry milk, half the cocoa packet and the cinnamon together in a mug while they are still dry, so the cinnamon has something to cling to.
- 2 Add two tablespoons of cold water and work it to a smooth paste with the back of a spoon.
- 3 Pour in the hot water a little at a time, stirring, until it is thin enough to drink.
- 4 Taste before adding the rest of the packet. Half is usually enough — the dry milk is already sweet, and the second half costs more sugar than it adds flavour.

METHOD

- 1 Whisk the dry milk and cinnamon into the ½ cup of cold milk until there is not a lump left. Cold takes longer than hot — keep going.
- 2 Stir in the water and the vanilla.
- 3 Leave it in the fridge 20 minutes if you can. It thickens slightly and the cinnamon stops sitting on top.

# Morning Oat Steamer

*Thickens as It Goes*

INGREDIENTS

- ½ cup non-fat dry milk
- ¼ cup oat flour
- ½ cup 2% milk
- 1 cup hot water
- 1 tsp cinnamon
- 1 tsp honey

METHOD

- 1 Whisk the oat flour, dry milk and cinnamon into the cold milk until smooth.
- 2 Pour it into a small pan and bring it up slowly, stirring the whole time. It will thicken as the oat flour cooks — about three minutes.
- 3 Thin it with the hot water until it pours rather than mounds. How much you need depends on how fine your oat flour is.
- 4 Stir in the honey off the heat. It is breakfast rather than a drink; a spoon is not cheating.

# Salted Brown Sugar Steamer

*Let the Sugar Catch First*

INGREDIENTS

- ½ cup non-fat dry milk
- ½ cup 2% milk
- 1 cup hot water
- 2 tsp brown sugar
- 1 tsp vanilla
- ½ tsp cinnamon
- pinch salt

METHOD

- 1 Melt the brown sugar with a splash of the milk in a small pan over low heat, and let it bubble for a minute until it smells like caramel rather than like sugar.
- 2 Whisk in the rest of the cold milk, the dry milk, the cinnamon and the salt, off the heat, until smooth.
- 3 Add the hot water and bring it back to steaming, stirring. Do not let it boil.
- 4 Stir in the vanilla last. Heat drives it off, so anything added earlier is wasted.

- 1.5 cups hot water
- ½ tsp cinnamon

METHOD

- 1 Put the peanut butter in the mug on its own and stir in two tablespoons of the hot water until it loosens into a sauce. Add it to everything else at once and it stays a lump on the bottom.
- 2 Stir in the dry milk, the cocoa and the cinnamon.
- 3 Add the rest of the hot water slowly, stirring, until it is smooth.

METHOD

- 1 Peel the banana before you freeze it. Frozen in the skin it is a job for a knife and a bad mood.

Apple Pie Milk

Start With the Applesauce

- 2 tsp brown sugar

- ice

307 kcal · 17g protein · 56g carbs · 3g fat

METHOD

- 1 Whisk the dry milk into the applesauce first. It is thick enough to grind the lumps out against the side of the bowl, which milk alone will not do.

# Cold Oat & Cinnamon Milk

INGREDIENTS

- 1 cup 2% milk
- 1 tsp honey
- 1 tsp cinnamon

METHOD

- 1 Soak the oats in the cup of milk in the fridge for at least an hour, and overnight if you have it. This is the whole recipe; everything after it takes a minute.
- 2 Blend the lot — oats, milk, dry milk, honey and cinnamon — until smooth.
- 3 Strain it through a sieve if you want it thin. Skip that and it is closer to a drinkable porridge, which is the better breakfast of the two.

# Chocolate Cottage Cheese Shake

*Blend the Curd Out First*

INGREDIENTS

- ¾ cup cottage cheese
- 1 packet hot cocoa mix
- ½ cup 2% milk
- 1 cup cold water
- ice

METHOD

- 1 Blend the cottage cheese with the milk on its own until it is completely smooth. Not nearly — completely. Any curd left at this stage is still there at the end.
- 2 Add the cocoa mix and the ice, and blend again. Cottage cheese is doing the work here — it carries more protein than any other drink in this section without any dry milk at all.
- 3 Nobody who drinks this can tell it is cottage cheese, which is the only reason it is worth doing.
